The proposal is to sanction the supply during the current year of articles of equipment required for the labour schools in South Kanara at a cost of Rs 449-14-2. It is stated that the expenditure already incurred on account of equipment for these schools together with the amount now proposed for sanction exceeds the Commissioner's powers of sanction.

2. Under item 32 of Appendix 12 of the M.F. and A.C., Vol. II, the Commissioner of Labour has powers (1) to sanction initial equipment up to Rs 200, for a single teacher school, (2) to sanction additional expenditure upto Rs 100 whenever an additional teacher is appointed, and (3) to incur further expenditure upto Rs 50 p.a. for each school for repairs and replacements of furniture, apparatus, appliances, books and slates. The Commissioner has stated that the expenditure proposed is required to supply equipment intended for pupils who have either newly joined the schools or who have been promoted to higher classes. Similar sanction was applied for last year and the Development department issued the orders without reference to Finance.

3. It is submitted that the limit of expenditure already laid down in the M.F.A.C. seems quite liberal for an elementary school with one or two teachers and it is not apparent why the sanction of Govt. is applied for, for exceeding this limit. In the place of new boys who are admitted or promoted to higher classes each year there would be others leaving the school. If the sanction of Govt. is sought on the ground that the annual allotment of Rs 50 cannot be used for the purpose (mentioned at A above), the proper course would appear to be to enlarge the scope of the expenditure from this allotment to cover the case of purchase of equipment for boys newly admitted or promoted to higher classes. For orders whether, before Finance agree to the

roposal, Development may be asked to state whether 'B' above would meet the requirements of the case. If this would meet the case, necessary amendment may be issued to the rules so as to avoid the Labour Commissioner coming up to Government every year for such sanction. In any case this rush of expenditure at the end of the financial year should be discouraged especially as the schools are likely to be closed soon for the summer recess.

The draft may be accepted as a Special case. The Devt. Deptt. may be requested to consider the question framing rules after the issue of the orders. An addition may be made to the draft providing that expenditure should not be rushed through like this at the end of the year.
